

CONSUMABLES EVERYTHING YOU NEED TO KNOW

Did you know that Consumables fall under **Core Supports**? Consumables cover the purchase of everyday items e.g. continence aids and home enteral nutrition (HEN) products required to manage your personal disability-related needs.

At Plan Manage Assist we get asked what is included under the banner of consumables and how should these be paid for. In most cases participants and carers can pay their providers but there are a lot of good companies that are one-stop-shops for specialist healthcare products.

Some items that can be purchased under the Consumables budget.

- Continence products
- Personal care and safety products.
- Feeding tubes
- Catheters
- Mobility aids
- Bathroom & Toileting
- Absorbent products
- Pumps and syringes for home enteral nutrition purposes
- Equipment for eating and drinking
- Specialised mattresses and pillows
