

What is the difference between a Plan Manager and a Support Coordinator?

Whilst a Plan Manager focuses more on the financial aspects of your NDIS plan, a support coordinator will help to manage the supports and providers you hire.

So, what does a Plan Manager really do?

- pay your providers
- provide monthly reports on your budget spend
- provide you with access to a portal where you can view your budget and invoices
- ensure all checks and controls are in place to ensure that your plan is managed under the NDIS guidelines

- provide advice on what can be claimed based on your NDIS plan
- take the stress out of managing your NDIS plan and budget

What does a Support Coordinator do?

Support coordination helps you to make the best use of your supports in your NDIS plan.

Support coordination is a capacity-building support that helps you to:

- Understand and use your NDIS plan to pursue your goals
- Connect you with NDIS providers, community, mainstream, and other government services
- Work with your Plan Manager to allocate funding for your needs
- Assist you in preparing for your plan renewal and/or plan review
- Help you to manage Service Agreements, including changing or ending an agreement
