Quick Guide :

Plan Managed: The best balance of choice, flexibility and support.

NDIA Managed: Simple, but limited to registered providers only.

Self Managed: Full control, but with the highest level of responsibility.

From our experience, participants and carers choose Plan Management because it offers the greatest choice and flexibility while reducing stress and paperwork.

Plan Management also allows you to use both registered and unregistered providers (with an ABN and not related to you).

There is no cost to you—just ask for Plan Management at your next NDIS planning meeting and it will be included in your plan.
